Berger had a good attendance at Thomas Square last evening and the program was well received, the Old Kentucky Home burlesque affording intense enjoyment and amusement; but the greater fun was in watching the Curiew bell boys dodging the dismounted mounted "Cop" as they irreverently called

The picture of the Pali by Hugo Fisher is one of the finest works of that talented artist. Mr. Fisher has been extremely fortunate in selecting his point of view and his picture is undoubtedly the best of the many paintings of the magnificent panorama which opens to the eye of the visitor to the great Pali. The painting which is the property of W. C. Peacock is on exhibition at the Pacific Hardware art rooms.

Mr. Hugo Fisher has received an order from W. C. Peacock & Co. for a large oil painting which will be placed on the north wall of the Royal Annex, opposite the famous Correggio. The painting will be 8 by 10 feet, and the subject will be a group of Hawaiian girls in dancing costume. "Jack," who is a judge of "fast" stock has secured some fine models for the group, and there is models for the group, and there is no doubt that the picture will be a perfect gem.

The credit of the discovery of this morning's fire and giving the alarm, therefor, is due to Mrs. W. L. Wilcox, an Hawaiian lady who en route to the Cathedral on Fort street, made investigation of the cause for made investigation of the cause for a smell of burning clothing and an unexplainable smoke in the rear of the Ehlers building. The lady had quite a search for a police officer to whom, and also to the Police Station, she supplied the information, and by her well applied energy and judgment made all possible advantage of her lucky discovery and aided the suppression and control of what might have proved, in that particular region, an extensive conflagration.

Lewis & Co. have a new advertise. B. F Ehlers' Store Destroyed by Fire.

> Early this morning an alarm was turned in, notifying the Fire Department that the drygoods store of R. F. Ehlers & Co. on Fort street was on fire.

> The fire was first noticed by a lady driving to the early mass at the cathedral. She reported immediately to a patrolman who sent in the alarm.

> Two engines responded to the call and were stationed, one at the corner of King and Fort streets and the other at the corner of Hotel and Fort. The fire had made rapid progress, and in spite of the efforts of the department the large stock of goods of the firm was destroyed by the fire and water.

The cause of the fire has not been learned yet. An investigation is being held by a jury, composed of Messrs. W. F. Allen, J. Gilman, Henry Davis, L. C. Ables and E. F. Bishop. The jury is presided over by the Marshal. Mr. C. Bosse represents the insurance agents.

The stock consumed by the fire is insured for \$20,000 in the North German and the Transatlantic Fire Insurance Companies of Hamburg, H. Hackfeld & Co. are the agents here. The building, which is owned by J. Campbell, is insured for \$4000.

The manager of the store, Mr. Du Roi is absent on a business trip to San Francisco. He is expected to leave for home to-day. Mr. B. F. Ehlers, the owner of the business, is in Germany. The total loss is estimated at \$15,000.

A large stock of new goods is expected shortly by the agents of B.F. Ehlers & Co., and a new store and offices will probably be secured

It is generally believed that the fire was caused through the electric wires. At a meeting of the underwriters sometime ago it was demonstrated by an expert the danger of having electric wires in the immediate proximity of wood. Rats may eat the insulating material and lay bare the wire on places where the insulation has been destroyed will cause the sparks to fly and a risk of setting on fire the wood.

The theory referred to is made plausible through the fact that the fire evidently was started near the ceiling and gradually spread towards the floor. One counter was totally burned while the other was intact.

Mr. Campbell will probably erect a two-stories building on the same plan as his adjoining handsome

The investigating jury is still in session as we go to press.

#### The Pantheon.

The secret of the Pantheon's success lies in its management. Jim Dodd is a practical man and an experienced pioneer. His large reading room with its library of select journals and illustrated papers makes a convenient lounge where you can improve your mind by gathering information from all parts of the world, and gain health by having a glass of his famous Enterprise beer. Perhaps a chat with the many friends you are bound to meet there, or a social game of cards is in order. You feel at home then, for downwards from those popular knights of the bar John and Harry to the polite Japs, who bring you your beverage, all is admirably regulated If in a happy moment you can get Jim himself to spin you a few yarns of the olden days, then indeed you feel you have spent a most enjoyable evening full of interest and information.

### W.W. DIMOND'S

With Bryan and his 16 to platform and Mr. McKinley with his protection to sugar interests in the United States, Honolulu and Hawaii generally will not have much trouble to pick a winner to the best interests of the islands. But, as Hawaii is to be a relative by marriage to the great United States, most people here favor McKinley and protection. It has even been said, that with the election of McKinley, will come a two cents a pound duty on sugar. If this is true, we may look for money to burn in this community.

The chances for another hit toward a higher protective tariff may increase the prices of American products and this is something the public will have to consider. We've a stock large enough to last through an Administration and we bought the goods cheap. Our stock of Aluminum ware has never been equalled here for size or assort ment. The price is lower than has ever been thought of before.

We also have enamel ware in white, that is a perfect imitation of white China but is everlasting. Grey, (or blue), Agate ware-the old stand by goes to you at ten percent off the old price. It was cheap enough for anyone; this is cheaper to us and we give you the benefit-
